Dear Senator :

As a small business owner located in your state, I am writing to express my support for H.R. 5297, the Small Business Lending Fund Act of 2010. This bill is important to me because it will assist in freeing up capital to small businesses, increase access to federal contacts and contains important tax incentives. I urge you to support the bill.

In addition, I urge you to support an amendment sponsored by Senator Johanns, which will repeal the recently passed requirement to issue a 1099 for all goods and services above \$600.00. I believe my time and money would be better spent reinvesting in my business and increasing my revenues than doing paperwork that even the IRS does not have the capacity to handle.

This is a critical time to support women owned businesses. I respectfully request your support.
