We are in the midst of a large shift in economic history. Join WIPP and industry leaders October 11-13 as they meet and discuss how to realign and remove barriers. Explore solutions focused on expanding sources of capital and building access to markets to bring economic growth and spur job creation. Strategize on how to support the rise of women leaders in the public and private sectors, for they know, first-hand, the challenges we face and how to eliminate the barriers.
